DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Double Patenting

Claims 1-8 , 14,15 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-24 of U.S. Patent No. 6638959.

Although the conflicting claims are not identical, they are not patentably distinct from each other because the patent claims are anticipatory of the now claimed application.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claim1-4, 6 and 8, 14,15 stand rejected under 35 U.S.C. 102(e) as being anticipated HOWARTH US2003/0077365.

This publication has a priority date of 6/28/01, which predated applicant's CIP of 10/29101.

At [0052] we see the instant method. Granules are of the instant claim 7 form [0036, • 0037, 0040, 0041] and provide the instant claim 6 free CI.

Art Unit: 1615

Claim 1-3, 6-8, 14, 15 stand rejected under 35 U.S.C. 102(e) as being anticipated HOWARTH et al WO02/062141.

Instant claims 1, 2 are recited at [page 3, line 25; page 4, line 33; page 5, lines 15-23. Example 2 used a dispenser. Granule particle size is at page 15.

Response to Arguments

Applicant's arguments filed 5/2/07 have been fully considered but they are not persuasive. Applicant argues Howarth is only available under 35 USC 102 (e)..

However, those are the rejections made & retained.

Applicant's amendments & arguments have overcome rejections over NALEPA & over SMITH. However, the now claimed subject matter is evident in the claims of US 6638959.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
